

## Europass Curriculum Vitae

### Personal information

First name(s) / Surname(s) **Claus Goldberg**  
Address(es) Ringstedvej 20, 4000 Roskilde, Denmark  
Telephone(s) +45 46 30 03 10 Mobile: +45 40 94 73 67  
Fax(es) +45 46 30 03 11  
E-mail cg@orbicon.dk  
Nationality Danish  
Date of birth 4<sup>th</sup> December 1954  
Gender Male

### Work experience

Dates 2005-  
Occupation or position held Chief Consultant  
Main activities and responsibilities Evaluations, Habitat Directive, Natura 2000 network, project monitoring, EU Funding, international project Co-ordinator, EIA and SEA  
Name and address of employer Orbicon A/S, Ringstedvej 20, DK-4000 Roskilde, Denmark

Dates 2003-2005  
Occupation or position held Chief Consultant  
Main activities and responsibilities Evaluations, Habitat Directive, Natura 2000 network, project monitoring, EU Funding, international project Co-ordinator, EIA  
Name and address of employer Kvistgaard Consult ApS, Vester Voldgade 68, DK-1662 Copenhagen V, Denmark

Dates 2000-2002  
Occupation or position held Consultant  
Main activities and responsibilities External support related to LIFE Funding. Monitoring of project implementation. Evaluation of applications, information meetings and other.  
Name and address of employer Ecosystems ApS, Bruxelles.

Dates 1997-2003  
Occupation or position held Chief Consultant  
Main activities and responsibilities Evaluations, Habitat Directive, Natura 2000 network, project monitoring, EU Funding international project Co-ordinator, EIA  
Name and address of employer Rambøll, - Bredevej 2, DK-2830 Virum, Denmark

Dates 1990-1997  
Occupation or position held Substitute Head of Division  
Main activities and responsibilities Nature protection and international environmental agreements. Responsible for implementation of habitats directive, birds' directive. Additional nature management, nature restoration, EIA, Ramsar, Bonn, Bern, CITES and Biodiversity conventions  
Name and address of employer National Forest and Nature Agency, Ministry of Environment, Højbro Plads 4, DK-1200 Copenhagen V,

Dates 1987-1990  
 Occupation or position held Head of Section  
 Main activities and responsibilities Nature protection and international environmental agreements. Responsible for implementation of habitats directive, birds' directive. Additional nature management, nature restoration, EIA, Ramsar, Bonn, Bern, CITES and Biodiversity conventions  
 Name and address of employer National Forest and Nature Agency, Ministry of Environment, Højbro Plads 4, DK-1200 Copenhagen V,

Dates 1985-1987  
 Occupation or position held Analyst and database-designer  
 Main activities and responsibilities IT Consultant, programmer database designer, implementation of software  
 Name and address of employer Lindhard Computer Systems ApS, Holte Midtpunkt 3, 2840 Holte, Denmark

Dates 1980-1985  
 Occupation or position held Pollen(palynology)expert  
 Main activities and responsibilities Pollen research and counting, public information consultancy  
 Name and address of employer Danish Meteorological Institute, Lyngbyvej 100, DK-2100 Copenhagen, Denmark

### Education and training

Dates 05-1981  
 Title of qualification awarded M.Sc.Biology.

Name and type of organisation University of Copenhagen  
 Principal subjects/occupational skills General education in biology covering ecology, etiology, taxonomy, nature management, biochemistry, coveredgenetics etc.

Dates 05-1985  
 Title of qualification awarded BA in Social Studies and Civics

Principal subjects/occupational skills covered General education in social studies covering economy, sociology, politology etc.  
 Name and type of organisation University of Copenhagen

## Technical skills and competences

Claus Goldberg has generally broad experience with protection of nature areas, generally protected nature types and species. The experience is covering environmental impact assessments/evaluation of cultural and natural effects on nature areas, protection of, and management plans for areas, action plans for species, and generally administration of legislation on nature protection. Claus Goldberg is specialized in habitat and species protection, international agreements and conventions on nature protection and national implementation of these. He has furthermore worked extensively with evaluation of plans and programs, capacity building, training and institutional and organizational development related to environmental and agricultural issues

Mr. Goldberg has broad experience with evaluations, project monitoring, project management and quality assurance in connection with a row of projects inside the last 16 years. Experience covers areas in connection with monitoring of project management, team building, capacity building, institutional development, training, budget issues and other. Evaluations have been related to institutional performance, funding and development programs, and training and capacity building needs.

Claus Goldberg has especially experience with international nature protection through global and regional conventions and agreements and EC directives. Over a period of ten years, he has been the official Danish representative at conferences of parties (COP's) under e.g. the Bern Convention and in connection with management and specialist committee meetings under the EC Birds and Habitats Directive. The experience includes analysis and interpretation of obligations in international agreements and comparison with national legislation. The list of these agreements includes apart from he above mentioned the Ramsar, CITES, Biodiversity, Aarhus Convention and Bonn Conventions.

Claus Goldberg was responsible and project manager for the implementation of the Habitats Directive and the Natura 2000 network in Denmark through a 6-year period.

Claus Goldberg has further broad experience with environmental impact assessments in connection with construction works, e.g. in connection with roads, urban development, windmill parks a. o. Claus Goldberg has been project manager on several national and international projects on nature management and protection. Claus Goldberg has extended experience in cooperation with stakeholders at all levels including ministries, regional administration, private organisations, NGO's and landowners.

Claus Goldberg has finally experience concerning knowledge regarding the EU political system and EU agricultural funding system including EU pre-accession process especially the SAPARD program and the Structural Funds in general. Claus Goldberg has participated in several projects related to evaluation of rural development program in both Denmark and Eastern European Countries (8 countries), EIA and SEA related to programs and generally analysis of impact, sustainability, efficiency, effects and results.

Computer skills and competences MS Office tools

Driving licence Driving licence for car and motorbike

**Annex Professional experience (Before year 2000 only selected references)**

- Danmark 2008 Analysis II of possible synergy between the Habitats and Water Framework Directives continuation/II: Terrestrial habitats and monitoring programme.(2008)  
Project manager on the project where Orbicon is carrying out an assessment on synergy between the two directives in relation to selected terrestrial and lake habitats and evaluation of national monitoring programme related to this. The main output from the project will be detailed assessment report and guidance for central, regional and local administration. Client: Urban and Planning Agency, Denmark.
- Greenland 2008 Local use study in relation to possible mine in Greenland. (Isua Iron Mine close to Nuuk)  
Interview based analysis of local activities and reporting to London Mine Cooperation Company.
- Danmark 2007 Analysis I of possible synergy between the Habitats and Water Framework Directives continuation/II: Terrestrial habitats and monitoring programme.(2007)  
Project manager on the project where Orbicon is carrying out an assessment on general synergy between the two directives in relation freshwater habitats and species. The main output from the project will be detailed assessment report and guidance for central, regional and local administration. Client: National Forest and Nature agency, Denmark.

- Denmark 2007-2008 Preparation of green sectorial plan for Danish Municipality- Ballerup .(2007-2008)  
Team member on project where Orbicon in close dialogue with the Ballerup Municipality is assisting in development of a local "Green Planning" document to be used in administration and all interested organisations and parties in the municipality. Client: Ballerup Municipality, Denmark.
- Denmark 2007-2008 Analysis of physical planning and ecological networks (2007-2008)  
Team member on the project where Orbicon is carrying out an analysis of the Danish physical planning system at national, regional, and local level related to protection and management of ecological networks. Output in the form of a Danish case story based on interviews, national legislation, and planning documents. Client: ECNC, The Netherlands.
- Greenland 2007 Local use study in relation to possible mine in Greenland. (Kringlerne Mineral Mine close to Narsaq)  
Interview based analysis of local activities and reporting to Westrip Mining Company, Australia.
- Denmark 2007 Analysis of samples from a Danish Waterworks. (2007)  
Team member on a project where Orbicon is assisting a Danish waterworks because of problems with bacteria in the outgoing water. Work related to analysis of water samples and filter material for invertebrates. Output in the form of findings related to insects and invertebrates. Client: Marstal Waterworks
- Croatia 2007 Ex ante evaluation of the Croatian IPARD Development Plan 2007 – 2013 (2007)  
Orbicon is carrying out the ex ante evaluation of the Croatian pre-accession Rural Development Plan 2007 – 2013. The project will be to prepare an ex ante evaluation within the guideline from the EU-commission in order to assist the Ministry of Agriculture, Forest and Water Management with finalizing the IPA – rural development plan. Client: Ministry of Agriculture.
- EU 2006-2008 Wildlife and sustainable farming – DG environment EU project. 2006-2007  
Project manager on the project. Main objective is to analyse relationship between conservation status of selected species included in the listing in the habitats and birds directives and farming and forestry practices in EU 25. Main outputs will concern reports on single species with analyses of impact from farming and forestry, examples of positive effects from program implementation, handbooks describing relationship between the mentioned practices and key nature types and guidelines for development of new programmes in agriculture and forestry in EU. Client: European Commission DG Environment.
- Slovenia 2006 Ex ante evaluation of the Slovenian National Strategy and Rural Development Plan 2007 – 2013 (2006) Orbicon is carrying out the ex ante evaluation of the Slovenian Rural Development Plan 2007 – 2013 together with the University of Ljubljana. The project does moreover include assistance to finalize of the Slovenian National Strategy and the Rural development Programme for the new programming period. Responsible for environmental considerations and EIA in relation to programme development. Client: Ministry of Agriculture
- Bulgaria 2006 Bulgarian Cross border project- PHARE EU project. 2006  
Physical planning expert in relation to implementation of the project. The project concerns planning for a large river valley area including Danube Delta in Bulgaria and Romania. The main objective of the project is to secure sustainable development in relation to rural development planning including agriculture, forestry, infrastructure and other production in the area. The projects aims at balancing nature protection and development and diversification of possibilities for rural and urban human populations in the area. Client: European Commission
- Bangla Desh 2006 Conference on GMO in Bangladesh- Danish Ministry for Foreign Affairs/DANIDA. 2006  
The project concerns preparation and conduction of a conference in Bangladesh on use of GMOs to contribute to increased agricultural production and poverty reduction. Responsible for section in background material for the conference on technical issues related to GMO and international environmental regulations including Biodiversity Convention and Cartagena Protocol. Client: Danish Ministry of Foreign Affairs.
- Denmark 2005 Conference Wind Mills Of-shore- Danish Ministry of Environment 2005  
QA in relation to conference material and final reporting from the conference describing main results including evaluation of questionnaires to participants in the workshop
- Bulgaria/Romania 2006 Bulgarian Cross border project- PHARE EU project. 2006  
Physical planning expert in relation to implementation of the project. The project concerns planning for a large river valley area including Danube Delta in Bulgaria and Romania. The main objective of the project is to secure sustainable development in relation to rural development planning including agriculture, forestry, infrastructure and other production in the area. The projects aims at balancing nature protection and development and diversification of possibilities for rural and urban human populations in the area. Client: European Commission.

- Greenland 2005-2006 Strategy and prioritising of Dancea funding in relation to area: Biodiversity and sustainable use of natural resources. Client: Dancea administration (2005 - 2006)  
Project manager on the project with the objective to analyse the ongoing program including present prioritization of measures. Through interviews and analysis of documents and political papers and in close cooperation with the administration proposals for future strategy and prioritization inside the measure, biodiversity and sustainable use of natural resources, will be developed.
- Czech Republic 2005 Czech Republic. Evaluation of the Rural Development Programme (RDP) for the period 2007- 2013. Client: Ministry of Agriculture, 2005.  
DDH Consulting is assisting the Ministry of Agriculture in Czech Republic with the preparation of the 2007-2013 Team member in the evaluation with responsibility related to the general analysis and specific responsibility related to possible environmental impact of the programme and thereby responsibility related to axis 2.
- Romania 2005-2006 Romania: Update of the Midterm evaluation of the SAPARD programme in Romania, 2005-2006  
DDH Consulting in cooperation with Agrotec Italy is currently updating the midterm evaluation of the Romanian SAPARD programme. The update evaluation will look into the relevance of the programme as well as effectiveness, effects, efficiency and sustainability. The evaluation does moreover include an evaluation of the administrative support. Team member in relation of the assignment with general task and specific responsibility related to analyses of environmental impact from the Programme.
- Lithuania 2005 Lithuania: Programming and ex ante evaluation of the 2007-2013 Rural Development Programme, 2005  
DDH Consulting/Kvistgaard Consult is assisting the Ministry of Agriculture in Lithuania with the preparation of the 2007-2013 RDP and the ex ante evaluation hereof. The project does moreover include assistance with developing application forms, guidelines for applicants, identifications on M&E indicators etc. Team member with specific responsibility related to environmental impact of the programme.
- EU 2005-2006 Technical assistance to the European Commission in relation to Bern and Boon Conventions and other 2005-2006.  
Team member in connection with the technical assistance in relation among other development of the biannual report from The Commission on derogations related to the Bern Convention in EU member states. The derogations concerns the similar obligations in EC Birds and Habitats Directives.
- Denmark 2005 Ecotourism components in DANCEE funded projects. Lessons learned and future directions. (Continuation),2005  
Project manager in relation to finalizing the project (continuation) with preparation and conducting of international workshop, national information meeting and final reporting.
- Greenland 2005 Results and effect assessment of supported projects related to natural resources under the Dancea programme (2005)  
The objective of this project is partly to strengthen the utilization and promotion of the results from previous and ongoing Dancea projects related to nature protection and sustainable use of natural resources, partly to assess the quality and effects of the projects and thereby support the ongoing cooperation between Greenland and Denmark within this field. The project will, besides providing a description of results and effects of the different Dancea projects, act as work of reference containing the most relevant information for each project.
- Greenland 2005 Development of a concept and tools for Greenland on reporting under the Biodiversity Convention. Client: Dancea administration.(2005)  
Kvistgaard Consult has been asked to assist the Home Rule of Greenland with ensuring the future foundation for Greenlandic reporting in relation to international environmental conventions. The point of departure will be to prepare a draft for Greenland's contribution to the third report under the Biodiversity Convention. The project does moreover aim at ensuring procedures as well as the technical foundation in relation to the current report
- Denmark 2004 International Experiences with National Parks in Europe. The Danish Forest and Nature Agency (2004)  
In the fall of 2004 an appraisal of international experiences in relation to establishment, operation and management of national parks in Europe has been carried out. The aim of the appraisal was to gather information from 12 European national parks. The description of the 12 areas covers the following: a) General information, b) Landscape, nature and culture, c) Outdoor life and tourism, d) Trade and settlement, e) Management plans, f) Administration and public participation, g) Funding, h) Effects. Main output is a report with key findings from the appraisal. These were presented at a conference on international experiences with designation of NPs.

- Denmark 2004 Environmental impact assessment in relation to Marine Park coastal area planned for Springforbi in Northern Copenhagen. Denmark 2005.  
Responsible for environmental impact assessment in relation to planned artificial beach area. The project concerns in detail planning of 3 sand beach areas with construction of breakwaters and improved coastal safeguarding. Impact assessment concerns possible impact on habitats and species protected both nationally and in relation to international designations.
- Greenland 2004-2005 Support to Greenland's Implementation of the Convention of Biodiversity. Greenland 2004-2005  
Project manager on the project where main objective is to support Greenland, The Home Rule Administration with implementation of the Convention on Biodiversity. Key activities concerns preparation of a strategy and action plan for conservation and sustainable use of natural resources in Greenland. Other activities concern capacity building and securing procedures for general implementation of international agreements including reporting and cooperation with Danish administration
- Denmark 2004 Evaluation of involvement of local stakeholders in 5 pilot projects for possible designation of national parks in Denmark. The Danish National Forest and Nature Agency (2004)  
The evaluation concerns 5 out of 7 pilot project areas for possible designation of national parks in Denmark. The objective of the project is analysis of the local involvement and to what extent this has influenced the final reports. Analysis concerns the process, and results, but also economical conditions for the involvement, and lessons learned from the involvement.
- Denmark 2004 Elaboration of management plans for selected sites proposed for the Natura 2000 network within PHARE twinning project. Poland. 2004  
Project manager on the project where immediate objective is development of management plans for 7 preselected Natura 2000 areas covering in total 15 sites. The management plans includes of course status, management needs, monitoring programme, local involvement, reporting, administration, capacity building, training, public awareness etc. Main outputs will be the plans including GIS maps, final proposals for future administration, monitoring, local involvement, information preparation, needed research, and revised database following the EU standard data format.
- Nordic Countries 2004 Evaluation and analysis of the Nordic Atlantic Cooperation. 2004 Kvistgaard Consult has an assignment for Nordic Council of Ministers on Evaluation and analysis the Nordic Atlantic Cooperation (NORA). That is a project under the Council. The project has two objectives; one is to evaluate the performance of NORA in the period 2001-2003, another to evaluate the development potentials of the cooperation as a body for coordination and cooperation between the Western Nordic agreements on work.
- Denmark 2004 Evaluation of the BioTIK (Biotechnology and Ethics)-initiatives for The Danish Consumer Agency and the BioTIK secretariat. 2004  
Kvistgaard Consult is part of a consortium that has been assigned to evaluate the BioTIK-initiatives. The purpose of the BioTIK initiatives is to encourage citizens to develop an opinion on gene- / biotechnology and facilitate public debates on an ethnical basis. In addition, it has been the task of BioTIK to involve ethnical considerations in legislation (EU and internationally) on biotechnology. The activities of the BioTIK programme are implemented from 2001-2004. The role of Kvistgaard Consult in the evaluation is to evaluate the two areas "Regulation" and "Education". Claus Goldberg is responsible for the part on regulation. The evaluation is based on analyses of outputs as well as through personal, qualitative interviews with central actors; both in Denmark and Brussels. The evaluation will create the basis for a decision on which of the initiatives will continue after the conclusion of the project.
- Slovakia and Lithuania 2004 Technical assistance to the Ministry of Agriculture and the SAPARD Agency, Slovakia and Lithuania  
Time 2004: Clients: Ministry of Agriculture, Slovakia and Lithuania  
Technical assistance to the ministry in relation to securing environmental good farming practice in relation to further implementation of the SAPARD programme in Lithuania and Slovakia , following among other recommendations from the mid-term evaluation of the programme. Assignment also related to EIA of programme and detailed evaluation of measure on agri-environmental activities.
- Romania 2004 Technical assistance to the Ministry of Agriculture, Forests, Water, and Environment and the SAPARD Agency, Romania on mid-term evaluation of SAPARD programme.  
Time 2004: Client: Ministry of Agriculture, Forests, Water, and Environment- Romania.
- Czech Republic 2003 Technical assistance to the Ministry of Agriculture and the SAPARD Agency, Czech Republic on mid-term evaluation of SAPARD programme.  
Time 2003: Client: Ministry of Agriculture Czech republic.  
Technical assistance in relation to Midterm evaluation of the Czech SAPARD Rural Development Programme. The evaluation is conducted in close cooperation with the contracted evaluator in order to strengthen the evaluation team. The evaluation will be carried out from October 2003 until November 2003. Assignment especially related to EIA of programme and evaluation of measure on agri-environmental activities.

Slovenia 2003 Technical assistance to SAPARD programme, Republic of Slovenia.

Time 2003: Client: Ministry of Agriculture, Forestry and Food, Republic of Slovenia.

The project concerns a mid-term evaluation of the Rural Development Program (RDP) in Slovenia. The overall objective of the midterm evaluation is to improve the measures under the RDP and if necessary lay the foundation for a reconsideration of objectives, funds and priorities. The evaluation is carried out during 2003. The mid-term evaluation includes an assessment of the continued appropriateness of the strategy, administration related to the programme, use of input from the programme and results, effectiveness and efficiency of the RDP.

Estonia 2003 Technical assistance to SAPARD programme 2000-2003, Estonia.

Time 2003: Client: Danish Ministry of Foreign Affairs.

Technical assistance to SAPARD Monitoring and Evaluation and Preparation of EU Membership Rural Development Programme through best practices. The first component relates to monitoring and evaluation and aims at improving the existing system, whereas the second component consists of assistance to the drafting of a new rural development programme upon Estonia's membership to the EU. Project includes arranging study tour to Denmark with information on Danish nature projects supported by EU LIFE Funding and the Danish RDP.

Greenland 2003 Evaluation of DANCEA (Danish Cooperation for Environment in the Arctic Region) activities in the period 1994 to 2003.

Time: 2003 Client: Danish Cooperation for Environment in the Arctic Region

The project includes evaluation of the administration and implementation of projects in the first 10 years of the funding mechanism. Main output is a report in three parts. The report will consist of an evaluation of the programme and implemented projects, evaluation of the administration, and a final part with conclusions and recommendations.

Denmark 2003 Evaluation of NERI's (National Environmental Research Institute) performance related to services to other parts of public administration.

Time: 2003 Client: National Environmental Research Institute

The project concerns an evaluation of the National Environmental Research Institutes performance in connection with services and readiness to assist other parts of the Danish administration in connection with obligations as an institution with research inside the public sector. The main output is a report describing results from interviews and conclusions and recommendations for decisions in connection with future performance.

Estonia 2003-2004 Regional implementation of the EC Habitats and Birds Directives in Läänemaa and Raplamaa Counties, Estonia. (Continuation), 2003 - 2004

Time: 2003- 2004. Client: Danish Cooperation for Environment in Eastern Europe (DANCEE)

Project manager on the project. Main objective is to secure the preparation of a draft Natura 2000 network with full description of habitats and species, databases. Elements in the project included also production of information material, public meetings, negotiations with owners and organisations, legal issues, video productions and more.

Russia 2003 Preparation and Implementation of a Management Plan for the Ramsar site Lake Chudskoye, Russia (Continuation), 2003 - 2004

Time: 2003- 2004. Client: Danish Cooperation for Environment in Eastern Europe (DANCEE)

Legal and planning expert on the project. Main objective of the project is to secure a management plan for the designated Ramsar site Lake Chudskoye. The project includes in connection with the management plan components on legal issues, biodiversity, public awareness and capacity building.

Russia, Romania, Poland 2003 Ecotourism components in DANCEE funded projects. Lessons learned and future directions. (Continuation), 2003 - 2004.

Time: 2003 - 2004. Client: Danish Cooperation for Environment in Eastern Europe (DANCEE)

Team member in connection with project implementation. Main objective of project is to analyse in detail three conducted projects in Poland, Rumania and Russia, and more generally 15 other projects to analyse what was planned in connection with ecotourism components, what was done, results obtained and possible lessons. Outputs include development of guidelines and workshops on results. Elements in analyse includes socio-economical aspects, cultural interest, nature protection, and livelihood.

Denmark 2002 Analysis of the cost to finance Natura 2000 network in Denmark in a 10-year period. Time: 2002. Client: National Forest and Nature Agency, Ministry of Environment.

Team member in connection with analysing the cost to finance Natura 2000 network in Denmark in the coming teen year period. The main activities were concerning evaluation and cost assessment of the past and present use of Agri-Environment measures in the management of the network of nature protection areas in Denmark.

Thailand 2002 Implementation of the Ramsar Convention, management and protection of wetland areas, Thailand.  
Time: 2002 Client: Ministry of Environment DANCED/DANIDA.  
Team member in connection with the project. The project was concerning sustainable administration and use of wetlands and implementation of the Ramsar Convention in Thailand. Main responsibility in connection with twinning with Danish experience on implementation. Also responsibility in connection with general obligations and interpretation of these in the convention.

Denmark 2002 Detailed planning for new fauna passage on the river Gudenaå at Tange Lake  
Time: 2002. Client: National Forest and Nature Agency, Ministry of Environment.  
Team member in connection with the project. It concerns the second largest river in Denmark where the main objective of the project is to secure passage possibility for Salmon and other freshwater species at the Tange Lake and Tange power station. Responsibility for environmental impact assessment in connection with fauna, flora, agricultural and cultural interests and quality assurance on the project implementation.

Sweden 2002 Four environmental assessments in connection with windmill farms in Southern Sweden  
Time: 2002. Client: Enron Wind.  
Team member in connection with project. The windmill farms in Sweden are located at the southern east coast and around the island Øland. The EIA includes impact on biodiversity - both terrestrial and marine, noise, waste, water quality, coastal morphology and other. Considerations are included in connection with national and EU regulations in the area, designation of internationally protected areas and other regulations. Included is also mitigation measures and aspects of reduction of the environmental impact, together with descriptions of monitoring and public involvement.

Denmark 2000 Drafting of LIFE application for client in connection with lake project for a drained bog area.  
Time: 2000 Client, County of Frederiksborg  
Team member in connection with project implementation. Main objective of the project is to draft LIFE application for client in connection with lake project for a drained bog including nature restoration, reestablishment of lake and reduction of discharge of nutrients.

Estonia, Czech Rep. Slovakia 2000 Establishment of Natura 2000 network in the Estonia, Slovakia and Czech Republic.  
Time: 2000. Client: Senter Internationaal, The Netherlands.  
Project manager on project providing technical assistance in connection with formulation mission. The purpose of the formulation project and mission was to assist the Estonian, Slovakian, and Czech Republic in full implementation of the EC Birds and Habitats Directives as part of the preparation for EU membership.

Malaysia 2000 Co-ordination and implementation of nature oriented international conventions, capacity building initiatives for the Conservation and Environmental Management Division in Ministry of Science, Technology and the Environment, Malaysia  
Time: 2000. Client: Danish Environmental Protection Agency (DEPA/DANCED)  
Team member on project design mission on a Danced financed project. The project design mission had as main objective to secure a final draft project paper for tendering. Project concerned implementation of international agreements in Malaysia and capacity building centrally in Ministry of Science, Technology and the Environment, but also decentrally. Activities in the project was focusing on job training, courses, workshops, securing networks nationally and internationally, preparation of information material on international environmental agreements etc.

Estonia 2000-2003 Regional implementation of the EC Habitats and Birds Directives in Läänemaa and Raplamaa Counties, Estonia. Time: 2000-2003. Client: Danish Environmental Protection Agency (DEPA/DANCED)  
Project manager on the project. Main objective is to secure the preparation of a draft Natura 2000 network with full description of habitats and species, databases. Elements in the project included also production of information material, public meetings, negotiations with owners and organisations, legal issues, video productions and more.

Latvia 2000

Capacity building and implementation of National Biodiversity Action Plan Organisational and financial schemes. Latvia.  
Time: 2000. Client: Danish Environmental Protection Agency (DEPA/DANCED)  
Project manager on Project Design Mission to prepare project proposal. Main objective of the project is to secure capacity building, administrative practices and networking, development of new administrative bodies and assistance in connection with implementation of national nature protection, international cooperation and especially national biodiversity action plan. Project is using standard DANCEE Logical Framework Analysis.

Denmark 1999 EIA reporting in connection with road development.  
Time: 1999. Client: Danish Counties.  
Responsible for quality assurance on different EIA reports in connection with planned new roads. Lisbjerg - Skødstrup, Skærup- Ødsted, and Ebeltoft. Main objective of project is to secure environmental impact assessments in connection with the planning for the roads.

Lithuania 1999 Approximation of Lithuanian capacity, policies, and procedures on nature protection to EU requirements.  
Time: 1999. Danish Environmental Protection Agency (DEPA/DANCEE)  
Project leader on fact-finding mission to prepare project proposal on "Approximation of Lithuanian capacity, policies, and procedures on nature protection to EU requirements", including preparation of the project proposal. Main objective of the project is to secure basic knowledge in Lithuania relevant for implementation of Habitat and Birds Directives and include capacity building, fieldwork, training, development of databases, legislative issues, and increases public awareness.

Estonia 1999 Approximation of EC nature protection legislation and development of management plan for Soomaa National Park, Estonia.

Time: 1998. Danish Environmental Protection Agency (DEPA/DANCEE)  
Project leader on fact-finding missions to prepare two project proposals for technical assistance to implement international agreements and for protection of the largest National Park – Soomaa National Park - in Estonia. The approximation project includes elements on securing basic information on biodiversity, legal issues, public awareness, databases, and development of action plans for selected species. The management plan includes elements on nature protection, agriculture, forestry, development of visitor centre and exhibition

Ministry of the Environment and Energy,  
National Forest and Nature Agency,  
Ecological Division. 1987 to 1997

Main working areas:

- Nature management in Denmark, administration in connection with the Act on Nature Protection, especially protection of habitats and species. National implementation of international agreements on nature protection - conventions, directives, recommendations etc.
  - Responsible for the implementation of the EC Habitats Directive in Denmark including designation of protection areas, negotiations with land owners, farmers and hunters organisations, and other ministries. The main ministries were Ministry of Agriculture, Fishery and Transportation.
  - Environmental impact assessments in connection with reviews, comments and approval of regional planning on roads, highways, harbours, transmission lines and windmill parks.
  - Interpretation of obligations in international agreements and comparison with Danish legislation. Participation in drafting of new laws and regulations concerning habitat and species protection.
  - Participated as official Danish delegate at Conferences of Parties and other international meetings in more than 20 European countries. Meetings concerned among other, EC Habitats and Birds Directives, LIFE regulation, and Bern Convention. Work has also included Ramsar, CITES, Biodiversity, and Bonn Conventions.
  - Teacher and participant on several international projects concerning implementation of international agreements on nature protection in e.g. Hungary, Republic of Slovakia, Latvia, Estonia and Thailand. The projects have often focused on analysing the obligations in connection with ratification and ways to implement international agreements.
  - Chairman in international meetings on nature management, monitoring and conservation. Chairman in Nordic Working Group on threatened nature types.
- General ecological advisor on protection, environmental impact assessments, management and restoration of wetland areas, forest areas, heathlands, salt water and fresh water meadows, bogs and moors.
